The Board is committed to using the results in this report, to the best of its abilities, to improve outcomes for students and to ensure that all students in the school authority can acquire the knowledge, skills and attitudes they need to be successful and contributing members of society.

This Annual Education Results Report for 2020/2021 was approved by the Board on Nov 29, 2021

Student Success

The educational philosophy of Lakeland Christian Schools depends upon the Bible to provide the viewpoint for interpreting any subject or any school activity. The mandate for Christian education comes from God's command that children are to be taught to love God and give Him pre-eminence in their lives, and that parents are responsible for the total education of their children (Deuteronomy 6). The teacher represents the parents during the school day but does not relieve parents of their educational responsibilities to their children.

Student success requires age appropriate development in several areas including knowledge, skills, godly character, healthy relationships, emotional resilience, and social responsibility. Achievement is influenced by many factors and does not always result in measurable outcomes. Local assurance of student growth and success is achieved by reporting those items that are measurable and communicating the programs and supports that are reasonably expected to achieve growth in domains that are less conducive to quantitative measure
